the fair spirit

**CLOTHING
& ACCESSORIES**

**2020
Collection**

Dear reader,

For almost 30 years, the SOL'S brand has aimed to provide a modern, high quality medium for everyone to express their uniqueness.

That's why we draw on our expertise and passion for creating textiles as well as a whole range of useful and inventive services to boost the performance of companies choosing the SOL'S brand.

With a passion for fashion, SOL'S teams have always been highly inspired by ready-to-wear trends when creating the various collections, whilst always bearing in mind that these products are designed to put across a clear message. That's why our choices of materials, cuts and finishes tick all the right boxes in terms of comfort and

style, as well as in product transformation.

Determined to make a reliable means of communication available to all, SOL'S is constantly striving to improve its innovation and quality.

This is primarily demonstrated through its choice of materials and how it processes and assembles its clothing, followed by the quality control in place throughout the production chain which are certified by independent bodies. Finally, these exacting standards are expressed through our constant digital transformation which enables us to offer our network of retailers and distributors an increasingly innovative and advanced range of services, from logistics to communication.

SOL'S is committed to ensuring ethics lie at the very heart of its approach. With a view to respecting the environment as well as people, SOL'S has always maintained fair and responsible relationships with all its contacts, factories, employees, service providers and partners. This is our guarantee of a product that can be used with complete peace of mind.

In 2020, we are pursuing our ambition by offering new styles, materials and colours, making us your go-to partner for expressing your uniqueness.

Thank you for your loyalty.

**EXPRESS
YOUR
UNIQUENESS**

The cuts and styles of each product are designed to meet all brand requirements in terms of expression and communication.

CHOOSING THE BEST TYPE OF DECORATION FOR YOUR PRODUCT:

EMBROIDERY:

particularly suited to thick fabrics as well as medium-sized motifs and all production scales. Embroidery provides a high-quality appearance and excellent long-term durability.

SCREEN PRINTING:

suitable for all types of products and bright colours. Lasts well over time, ideal for large quantities.

FLOCKING:

suitable for cotton and polyester products, ideal for adding texture and volume to the printed motif.

SUBLIMATION:

the most efficient and economical way to apply high-quality synthetic images onto textiles. This technique retains the initial feel of the material and is very resistant to repeated washing.

DIGITAL PRINTING:

best suited to cotton products, ideal for motifs with a high level of detail and colour as well as for large areas of customisation, and recommended for small and medium scale production.

LASER:

subtle and stylish marking with optional colour application, particularly suited to fleece, felt and coated polyester.

TRANSFER:

an ideal technique for complex areas, transferring is suitable for small quantities or for motifs containing lots of colours. A very economical procedure, ideal for individual and event-based customisation.

How to choose the right model?

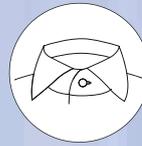

COLLARS

Classic collar

The classic collar is the most common type and is slightly spread. This traditional model is a must-have, ideal in all circumstances and suitable for both business and casual styles.

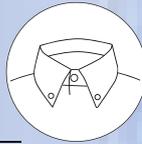

SOL'S BRODY MEN 02102
SOL'S BALTIMORE FIT 02922

Italian spread collar

The Italian spread collar is characterised by its wider spread and shorter points, which give it great elegance.

SOL'S BELMONT MEN 01430

Button-down collar

The distinguishing feature of this collar resides in the buttons that fasten its points. They give a good support to the collar.

PLACKETS

Stiffened collar

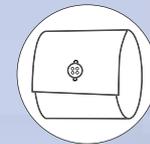

This option is available for some of our shirts. It is possible to offer a better support to the collar by adding stays on its points, which prevent it from deforming. Thus, the stiffened collar gives the shirt a chic and dressy style.

Our fabrics

Poplin

Light and tight weave, which is soft and comfortable to wear. Its bright effect makes the garment flowing.

Washed poplin

It offers a superior comfort and a pleasant touch.

Stretch poplin

Light and comfortable to wear. The stretch material allows great freedom of movement.

Polycotton poplin

Made out of polyester and cotton fibres, it combines the strength of polyester with the comfort of cotton, offering a very easy care.

Herringbone

Herringbone fabric adds a refined touch to shirts, for a dash of originality. This fabric is soft and silky, making it easy to iron.

Oxford

Strong fabric with visible grain. The Oxford construction combines value and tradition.

End-to-end

Weave similar to poplin, made of 2 coloured yarns. The end-to-end weave gives an extreme refinement to shirts, offering a high-quality and chic product.

Denim

Renowned for its durability, denim lends itself to corporate wear as well as casual styling. A timeless, must-have fabric in your wardrobe.

Twill

Weave characterised by diagonal lines. Soft and silky, it gives a smart finish and a very good resistance to garments. Moreover, twill fabric is easier to iron.

Cotton micro twill

Soft and comfortable fabric for easy-to-wear garments.

100% polyester crepe

Flowing, feminine and easy-care. It offers a modern look and is comfortable to wear.

Cuts

How to choose the right cut for your shirt

REGULAR
fit

Straight cut

Comfortable cut. It allows to feel more comfortable in one's shirt. Shirts featuring a straight cut have straight flanks that stay parallel and do not follow the natural chest shape.

BRODY – p113

And also...

BURMA MEN – p121
BALTIMORE – p104

Fitted cut

A modern and the most universal cut, suited to the majority of men. This cut is slightly tighter around the chest so as to emphasise the silhouette without being too close-fitting. Ideal for the Corporate range.

ELASTANE

A stretchy yarn mixed with cotton for greater comfort.

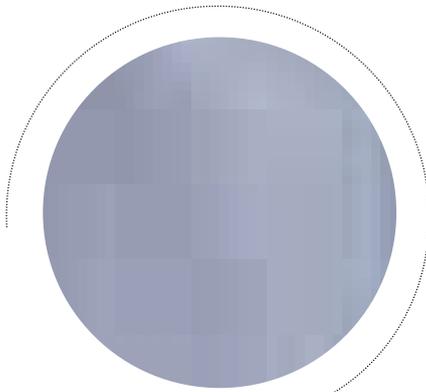

DENIM

A high quality, tightly woven fabric. Denim usually comprises a blue warp and a cream or white weft. Its twill weave forming diagonal lines makes it visually recognisable.

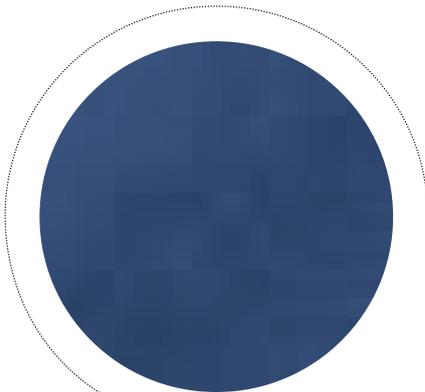

COMBED COTTON

With long fibers. So called because the yarn has been combed to remove impurities and shorter fibers, making the material smoother and stronger. Perfect for digital printing.

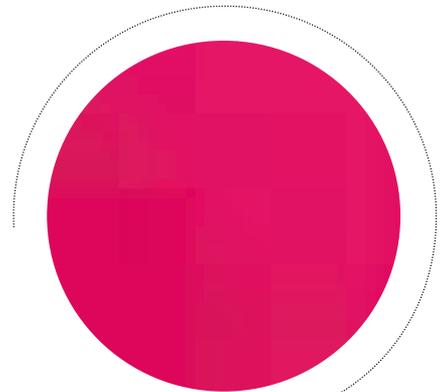

SOFTSHELL

Material consisting of three layers: the outer layer is neoprene-based with added elastane, the inside layer is a micro fleece, with a technical layer in-between. The material is insulated for warmth, water-resistant, breathable and wind-proof.

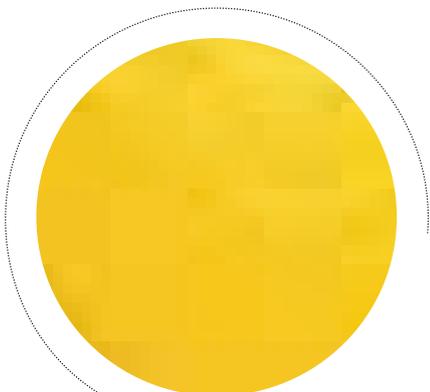

TWILL

Sergé cotton or cotton mix with thin, oblique ribs.

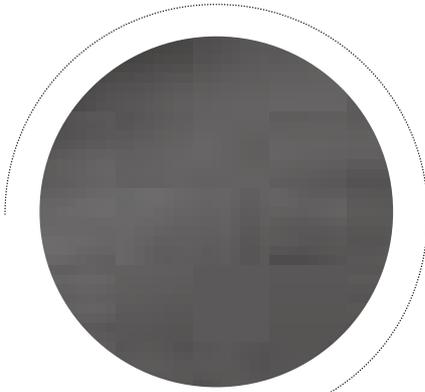

FLEECE

Heavy jersey knit with polyester and cotton. Its inside surface has been brushed making it warm and soft.

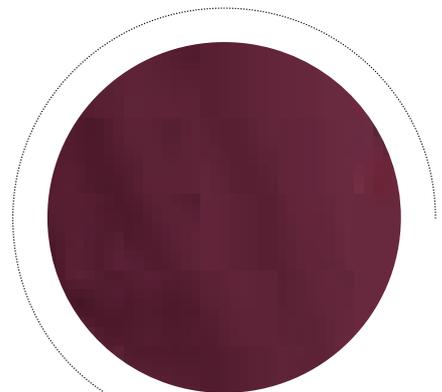

RINGSPUN

Our T-shirts are knitted with superior quality Ringspun making them soft, pleasant to wear and beautiful-looking – the European quality answers to American knitwear using open-end cotton, more loosely-woven and less sophisticated.

OXFORD

Soft, very strong material used for shirts. Coloured yarns are used for the warp while white yarns make the weft, emphasizing the plaiting effect.

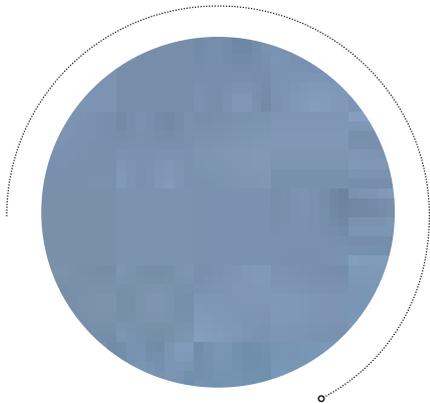

JERSEY

This basic knitting makes the material soft, strong and supple with a smooth surface ideal for all sorts of printing.

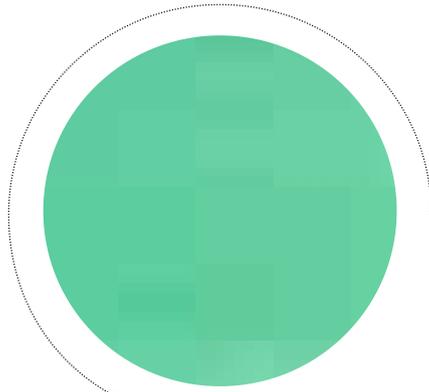

TEXTILE ALLOWANCE

For promotional wear, European standards are + or – 5% for weight and size.

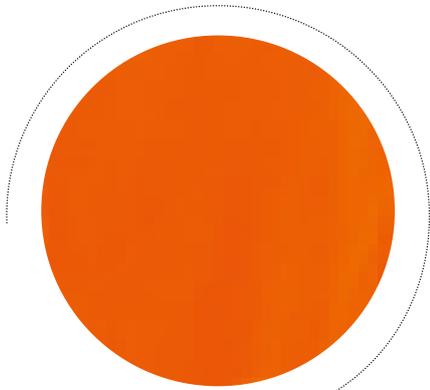

PIQUÉ

A very comfortable type of material, used mainly for polo shirts. SOL'S piqué has a particularly smooth surface perfect for all types of printing.

FRENCH TERRY

French Terry has one side flat and the other side with large loops. When the loops are in contact with the skin, they provide a better absorption of humidity and increase the comfort of wearing the clothes.

POLAR FLEECE

Knitted polyester fibers. The material is thoroughly brushed on both sides, and resembles fleece. All our polar fleeces have anti-pilling treatment.

YARN

SOL'S products are made with superior quality yarns – yarns 24, 26, 28, 30 & 40 depending on the weight of the material. The thicker the yarn, the heavier the material.
